PROJECT OVERVIEW

Square Feet: 20,000/sf

Factory Qualified Installer: Mark Beamish Waterproofing, Anaheim, CA

PROJECT DESCRIPTION

Poly-I-Gard® 246SC, applied by Mark Beamish Waterproofing on a 20,000 sq. ft. parking deck of a retail center in Redondo Beach, California.

PRODUCTS USED

Poly-I-Gard® 246SC is a single component, liquid applied, moisture cured, aromatic polyurethane waterproof membrane well suited for heavy pedestrian traffic areas.

RESULTS

Mark Beamish Waterproofing was able to deliver the project on time and on budget with their waterproofing costs.
