TRACK SYSTEMS

Complete athletic surface systems

World Athletics Certification Number: S-26-0723

POLYTRAC® | POLYTRAC® BS | POLYTRAC® BSS | POLYTRAC® SW | POLYTRAC® V

POLYTRAC® SYSTEM

POLYTRAC® represents the complete athletic surface solution for elite performance and everyday recreation. Engineered with **World Athletics Certification**, our polyurethane base mat technology provides the foundation for a range of specialized surfaces designed to meet every facility need.

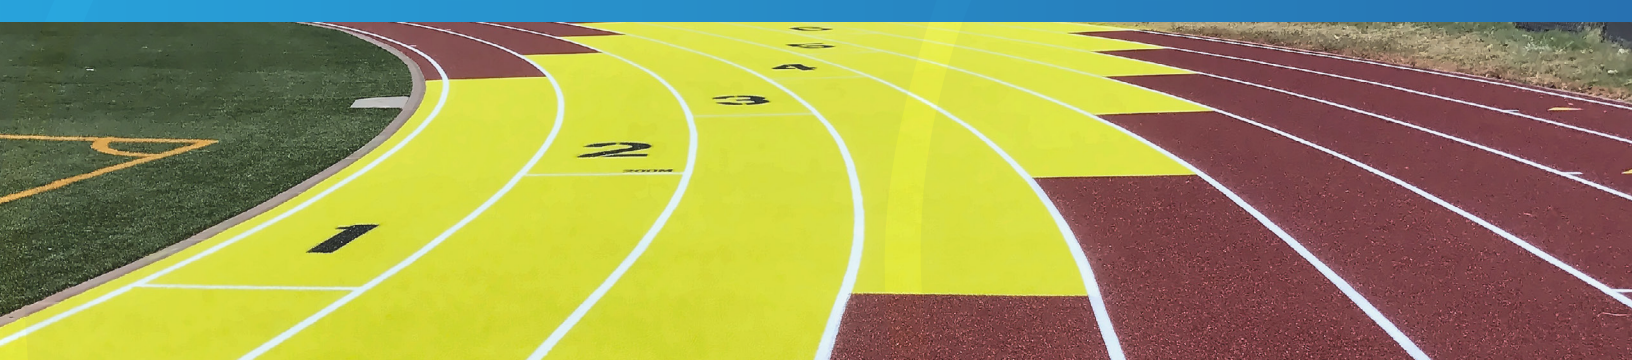

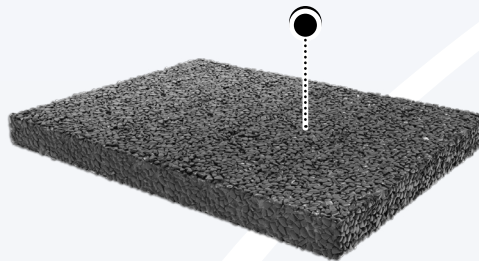

Whether you're outfitting a championship-level track or a community recreation facility, POLYTRAC's modular approach delivers professional-grade construction with proven resilience, spike resistance, and all-weather reliability.

Each system combines the same commitment to athlete safety and surface longevity, giving facilities the flexibility to choose the performance characteristics their environment demands. Built to perform, engineered to last.

POLYTRAC®

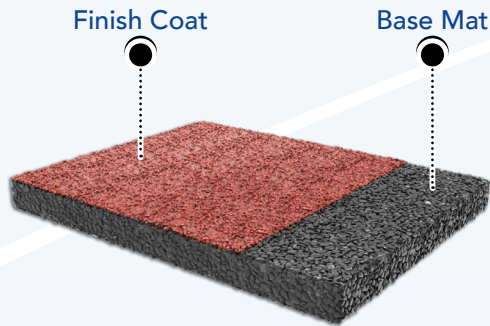

Permeable polyurethane base mat with rubber crumb for a durable all-weather running surface.

Base Mat

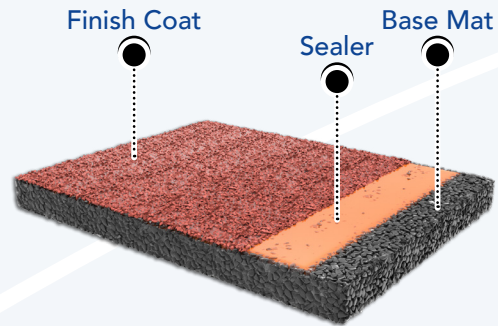

POLYTRAC® BS

Permeable base mat with sprayed polyurethane-encapsulated EPDM for a pervious, resilient surface.

POLYTRAC® BSS

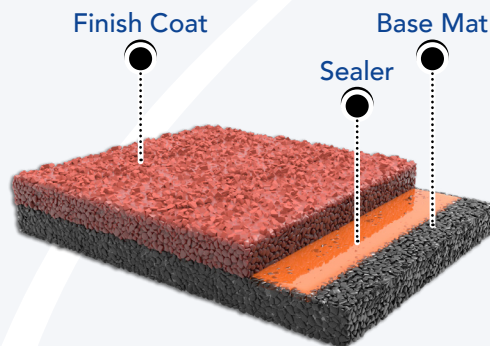

Sealed base mat with sprayed polyurethane-encapsulated EPDM for a textured, impermeable surface.

POLYTRAC® SW

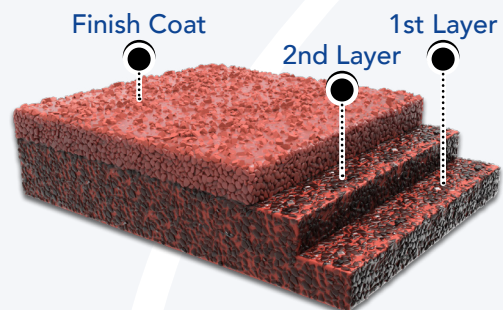

World Athletics Certification Number: S-26-0723

Sealed base mat with self-leveling urethane and broadcast EPDM for a spike-resistant competition surface.

POLYTRAC® V

A full-pour, impermeable, all-weather synthetic surface made of self-leveling polyurethane, featuring embedded black granules in the first two layers and a colored EPDM finish.

Advancements at Polycoat Products have resulted in improved binders for multiple applications that include wider temperature and humidity ranges, surface coatings, and binders for many substrates. Product formulations with high tensile strength, elongation, and tear resistance have been developed in our state-of-the-art labs designed to exceed customer expectations. Additionally, our materials are field tested extensively to ensure we meet our customers' demanding applications.

Polycoat Products has been an industry leader in polyurethane and polyurea flooring and surface systems for over 30 years. Our goal has always been to innovate and continually offer cutting-edge materials that add product and cost benefits to our customers.

We have over 1,000,000 square feet of manufacturing space in six chemical facilities located in three sites across the United States to produce and quickly supply large volumes of products nationwide and internationally. At these locations, all products have numerous quality control checks to ensure product excellence and consistency. Our goal will always be to provide high quality, cost-effective products for our discerning customers.

A Family of Brands, United by Innovation

Polycoat Products is part of American Polymers Network, working together to provide cutting-edge solutions for industries worldwide. Backed by expert chemists and engineers, we develop high-quality, industry-leading products trusted in homes, businesses, landmarks and major industrial projects. Explore our family of brands, each dedicated to delivering performance, durability and innovation.
